DXC Technology

DXC Assure for Property and Casualty

Modernize your technology estate and simultaneously build new digital capability to improve speed to market, efficiencies, innovation and customer experience.

Deliver digital insurance to attract and serve a new generation

Today's insurance customers expect digital experiences, information at their fingertips and flexible policies. Insurers are looking for solutions that enable speed to market, maintain policyholder retention levels, improve customer and employee experience, and reduce cost. DXC Assure for Property and Casualty focuses on these and other challenges.

Get ready for new digital markets

The integrated, cloud-native, microservice-composed solution encompasses policy administration and beyond. It combines customer engagement, self-service, analytics, cognitive/artificial intelligence and other capabilities that are essential for the next decade. Our comprehensive REST application programming interface (API) framework integrates existing

Key benefits

- Deliver new products faster
- Engage customers and agents in the way they prefer
- Incorporate self-service, analytics and artificial intelligence within your existing systems
- Innovate beyond traditional insurance to bridge the gap from purchase to claim
- Leverage our extensive partner ecosystem

technology into the open DXC Assure Digital Platform and offers a gateway to our ecosystem of partners and insurtech innovation.

Our software addresses compliance with regional regulations, product needs, currency and language by providing geography-specific systems of record for the Americas, Europe, the Middle East, Africa and Asia Pacific. It helps you manage IT costs and staffing constraints, leveraging out-of-the-box, straight-through processing and contemporary customer engagement.

Managed Cloud Services | Cyber Defense | IT Ops | Service Management | Disaster Recovery/Business Continuity

Future-proof your business

DXC Assure for Property and Casualty addresses insurance carriers' biggest challenges: We help you streamline your product development; manage IT costs and staffing constraints; offer out-of-the-box, straight-through processing; and delight customers through contemporary customer engagement, whenever they wish and wherever they are.

The solution is modular, so you can pick and choose what you need now, and expand later. DXC Assure for Property and Casualty also works with your existing systems — you can extend legacy systems with new digital capabilities and avoid expensive system replacements. More than just a system, DXC Assure for Property and Casualty also offers a gateway to a unique ecosystem of partners with innovative, differentiated capabilities that meet the ongoing needs of a new generation of customers.

The solution is available as a service, meaning you avoid the costs of acquiring, managing and maintaining hardware and software.

Furthermore, you can leverage DXC's business process services (BPS) to create complete, standalone insurance operations and get to market quickly, without expending scarce internal resources. DXC Assure is fully integrated with, and operational in, our own BPS organization. With the integrated BPS offering you can consume both enabling technology and full third-party administration, including product configuration, new business, agent support, policy service, claims and more.

Why DXC?

DXC is the #1 provider of core insurance systems, serving over 1,900 insurance customers — 80 percent of whom are in the Fortune Global 500. DXC brings more than 40 years of industry domain knowledge and experience in enabling customers to modernize their technology estate and simultaneously build new digital capability — the dual agenda.

Capabilities

- Product configuration
- Policy administration
- Billing
- Claims
- Reinsurance
- Reporting and analytics

"We're excited at Ohio Mutual because we have been diligent. We have stayed the course on our systems strategies. That has positioned us to say, 'When these changes come about, DXC is bringing to bear solutions to meet those demands.' We're positioned to immediately take those solutions."

— Brad McCormack
Assistant Vice President of IT,
Ohio Mutual Insurance Group
